	List additional fees:									

--Confirm the extinguisher is visible, unobstructed, and in its designated location.

--Verify the locking pin is intact and the tamper seal is unbroken. Examine the extinguisher for obvious physical damage, corrosion, leakage, or clogged nozzle.

--Confirm the pressure gauge or indicator is in the operable range or position, and lift the extinguisher to ensure it is still full.

--Make sure the operating instructions on the nameplate are legible and facing outward.

--Check the last professional service date on the tag. (A licensed fire extinguisher maintenance contractor must have inspected the extinguisher within the past 12 months.)

--Initial and date the back of the tag.
