“Summer of Service” Brighter Tomorrows Mentoring Summer Program

I am happy to announce that Ward One’s mentoring program Brighter Tomorrows “Summer of Service” has been a great success! This summer we had service days and reward trips every week for the months of June and July. Young people and community leaders joined together and built forms for the concrete pads for the new trash containers for 16th ave south and together we built and installed a beautiful wheelchair ramp for Mrs. Mildred Williamson. Young people learned valuable carpentry skills supervised by Je Stephenson who is over the Carpentry program at Laurel High School. Participants also learned the powerful truth that positive actions bring about positive rewards and that doing something for someone that they can not do for themselves is one of the most Christ like things that a person can do. I would like to say a special thanks to Howard Industries for helping fund our Summer of Service through the purchase of materials for the projects. Special thanks to Principal Tito Lanier as well as Pastor Greg Read of Christ’s Church of Laurel for being a chaperones and mentors to our young people. Special thanks to Mayor Magee for encouraging our mentoring program and working with us to make improvements in Ward One and to provide positive activities for our young people.

Anyone who would like to make a donation to Brighter Tomorrows to assist with the purchase of fishing gear for our young people to use or with scholarships or project funding may do so by contacting Ward One City Councilman, Pastor Jason Capers at 601-323-2762.

Thank you for your time today

A handwritten signature in black ink that reads "Jason V. Capers". The signature is stylized with a large, sweeping 'J' and 'C'.
