

Traveling by Trolley, a Leadership Jones County team, has decided to take on the task of donating a working Trolley to the Jones County Chamber of Commerce. Streetcar services began running in Jones County in November of 1912. It was a delightful service that connected downtown Laurel to downtown Ellisville giving the people of Jones County an easy way to commute to the two towns. Sadly, in 1934 the barn that held the trolley cars burned and the cars never ran again. (misspreservation.com) Bringing a small piece of that trolley service back would be a treasure to the entire county.

The trolley can be used for historical, HGTV, and shopping tours in Laurel and Ellisville; it also would be a great addition to the wonderful festivals that we have in the downtown area. The nostalgia of riding a trolley down the streets of our historical downtown area will be like no other. We are excited to add to the growing tourism in Jones County and look forward to taking you on a trolley ride through downtown Laurel and Ellisville soon.

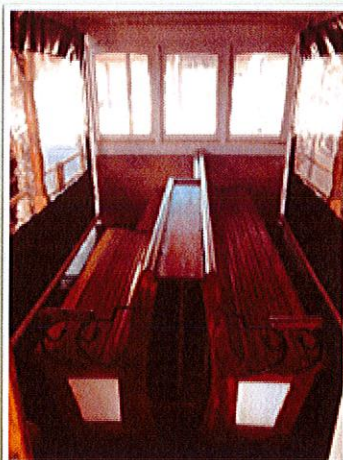

We are budgeting to raise \$30,000 to be able to purchase the trolley and do the necessary upgrades to make it truly worthy of Jones County. Please consider donating to our exciting project that is sure to capitalize on this special place we all call home.

Checks should be made payable to Community Development Foundation of Jones County and can be mailed to Leadership Jones County/Community Development Foundation, P.O. Box 527, Laurel, MS 39441. If you have any questions, or would like one of our team members to pick up a check, please do not hesitate to call us.
